Fatima is a Mumbai-based cat parent and rescuer who never turns a blind eye, no matter how overwhelming things get.

Every cat she rescues ends up purring in her lap!

She has helped 200+ animals & humans find each other and continues to guide new cat parents through the process with patience and clarity.

We adopted our first cat Nekoma from her and her support made all the difference.

Our Brand Updates

Launching This May: Simple Supplements & Freeze-Dried Treats

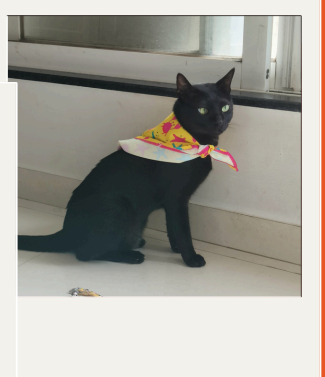

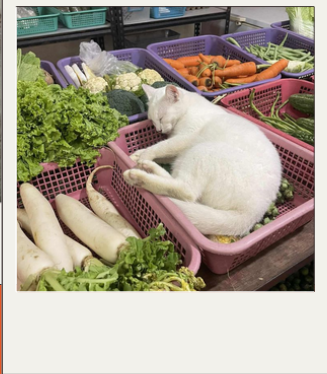

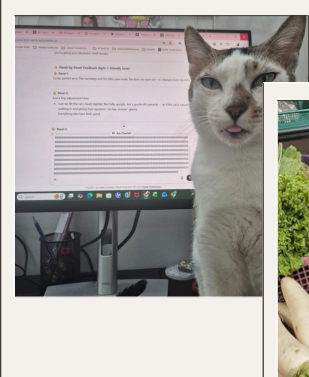

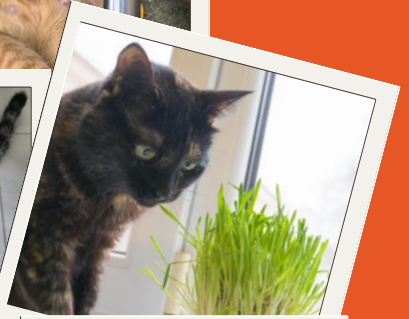

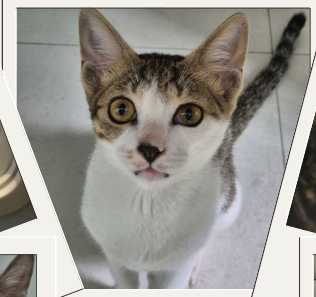

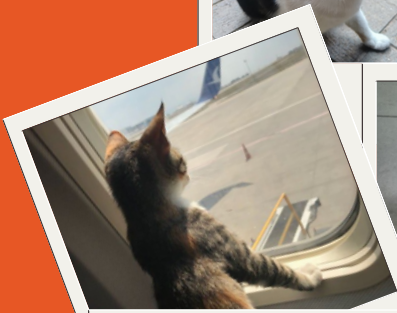

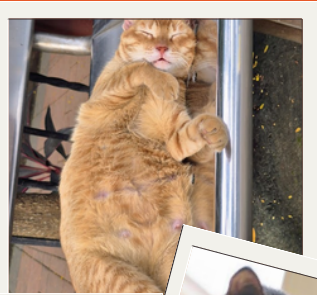

We're introducing easy-to-mix powders and freeze-dried treats designed to support your cat's daily well-being whether you're home cooking, feeding commercial, or doing a mix of both.

These aren't fancy formulas with endless claims rather bioavailable ingredients that make food accessible and complete.

The powders provide targeted support, while the freeze-dried treats deliver all the taste without the fuss or crap ingredients.

Thanks for tuning in this month. In the meantime, enjoy the cat gallery and we'll be back next issue with even more to look forward to.
